WELCOME TO MOMENTUM PRE-K!

Start Early, Finish Ready! Here at Momentum Early Learning our Pre-K program for 4 year olds is excited to begin the journey with you and your child to give them the best start to their academic education.

Children at Momentum Pre-K learn through creative play. The learning environment our teachers create for the children is their *work place* and the children come to *work* to learn. Our teaching staff is creative, intentional, and thoughtful in the *work place* they create for the Pre-K children.

Daily routines and meaningful experiences help enhance children's learning everyday while building important character skills such as responsibility, respect, empathy, kindness and independence.

Core Values essential for your child's success...

Safety

Nothing is more important than protecting the safety of our children. Our security system at the door uses fingerprint recognition to gain access into our facility for the utmost safety and security.

Education

One of the most important things we can do for each child is to encourage them to build a genuine love of learning which helps them build momentum for a lifetime of learning and success.

Cleanliness

We take pride in providing a clean learning environment for our children. Fewer germs mean fewer sicknesses and that makes for better overall health of each child. A healthy child is a happy child!

Technology

Momentum is tech savvy by offering parents access to our free secure webcams in each classroom to check in on their child throughout the day and by using iPad technology that enhances our curriculum.
